### About This Game

Do you want to join an alpha game and see the tremendous updates? Here we present the Ultimate War project, we are a new developer team and we want to bring you the best, we are players like you and we know how to listen and what our audience wants. This game is based on the Shooter mode, but unlike any game we will try to cover as many game modes as possible for your fun. In principle our game offers you conquest mode, plant the bomb, duel by teams and all against all, with which they will be adding more functions throughout the process of the alpha.
