## Zenkit Free [Win/Mac]

"Zenkit Cracked Version is a task management tool for individuals and teams. It is based on agile and lean startup principles and a combination of Kanban and GTD. Zenkit helps with getting stuff done in small chunks, close to the problem you are solving. Zenkit has a modern and intuitive interface with an emphasis on simplicity. Getting started is easy and fun. Zenkit is built to make your work efficient." Launched: April 28, 2018 Size: 59.9MB "Zenkit is a project management tool that makes your life as a developer a little bit easier by putting all the stuff you need to get stuff done into one simple and powerful tool. The interface is what makes Zenkit unique. The workflows are smart and intuitive, so that you can focus on what matters and get the most out of Zenkit. And the fun comes from the one-click integrations. You can use free third-party APIs to add a new project, email, calendar, and Slack notifications, or even better. All without having to write a single line of code. Zenkit is highly adaptable, and it allows you to bring your own data using Zapier, connect to popular APIs, and bring your domain model into the API. Zenkit is built for simplicity, and it makes getting stuff done easy and fun. There's a huge selection of integrations to choose from, from Zapier and Slack to GitHub, MailChimp, Zendesk, and Squarespace. Zenkit also contains project templates that you can use to get started with Kanban, tasks, projects, and milestones. There's also a meeting room so your team can collaborate and do Kanban in real time." Launched: April 28, 2018 Size: 22.8MB "My project management skill has probably reached the level of the law now." It's been one month since our products were launched and we are now undertaking the promotion of Zenkit.
